John,

Thank you for talking with me this morning. Last week I told Sonja I intended to be present at tomorrow's meeting with IP representatives just to listen, but after you expressed concerns this morning, I said that I would check with Carl and perhaps not attend. However, after discussion with Carl this afternoon, I wanted to let you know that I do plan to attend tomorrow's meeting.

I also spoke with you about the possibility of IP and MIMC doing some expedited work to keep barges away from the cap. The Corps is apparently preparing recommendations on this issue, and so I'm not sure what the timing for additional measures will be. Any agreed-upon additional protective measures could be considered post-removal site controls, and so would be covered by the existing consent order (and not require a separate order).

Thanks again,

Anne
